Extended Life Blue

252-1501

Beck/Arnley Premium Extended Life Blue Antifreeze/Coolant is an ethylene glycol based, prediluted, Antifreeze/Coolant formulated for Asian automobile engine cooling systems that specify the use of “Extended Life Blue” antifreeze/coolant.

Premium Extended Life Blue Antifreeze/Coolant utilizes Phosphated Organic Acid Technology also known as Hybrid Organic Acid Technology (HOAT) and contains no amines, borates or silicates that may harm water pump seals and cause gel formation which may clog the radiator.

This Antifreeze/Coolant provides superior extended life corrosion and rust protection of water-cooled automobile engine cooling system components and meets ASTM D-3306.

Our 50/50 prediluted formulations are ready to use. We use deionized water for purity. The deionization process removes the impurities and minerals from the water which may make the antifreeze/coolant less effective over time.

**PREDILUTED FORMULATIONS READY TO USE.
DO NOT ADD WATER.**

Always check owner’s manual for proper application.

ATTRIBUTES

APPEARANCE	Blue
DENSITY AT 20°C	1.07 g/cm ³
FREEZING POINT	-37°C/<34°F
FLASH POINT	None
BOILING POINT	129°C/265°F
WATER CONTENT	50%
PH-VALUE	7.7

Using a 15 psi (103 kPa) pressure cap at sea level

FORMULATED FOR OE REFERENCE NUMBER

ACURA	OL999-9011
HONDA	OL999-9011
INFINITI	999MP-L25500P
NISSAN	999MP-L25500P
SUBARU	SOA868V9270
SUZUKI	990A0-02E00-01Q

May also be used in: Mazda

UNIT SIZE PART NUMBER
